

Machine Learning

Lab introduction

Sulyok András Attila

Lab work overview

On the lab:

- (sometimes) short explanations in the beginning
- exercise list
- some of it until the end of the lab
 - Because we want to motivate you to:
 - **Ask questions!** (from the instructors)
- for the rest, you will usually have one week
- solutions will be up on Moodle after the deadline

Assignment submission rules

Jupyter notebook

should include: code,
figures, answers to
questions

or

Python script

figures as images,
answers as either textfile,
or Python comments

Please don't send links!

You can use Colab, Kaggle, Fugaku, whatever, just send me the code/results.
